DETAILED ACTION***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8 and 18-20 drawn to an apparatus and method for distributing an article along with a separate companion article, classified in class 700, subclass 219.
 - II. Claims 9-10 and 13-17 drawn to an apparatus for dispensing marketing materials in conjunction with a controlled dispensing of a companion dispensing machine, classified in class 700, subclass 241.
 - III. Claims 11-17 drawn to an apparatus for dispensing marketing materials in conjunction with the controlled delivery of entertainment to an audience, classified in class 700, subclass 234.

2. Inventions I, II, III, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.

In the instant case, invention I has separate utility such as filling a medication order in conjunction with its medicine applicator or syringe, or delivering vehicle fuel in conjunction with a car wash, oil change, or food in conjunction with utensils. See MPEP § 806.05(d).

Art Unit: 3651

In the instant case, invention II has separate utility such as dispensing hotel or sight-seeing brochures in conjunction with the dispensing of an airline ticket. See MPEP § 806.05(d).

In the instant case, invention III has separate utility such as the dispensing of sports program in conjunction with the dispensing of the sports ticket, or the dispensing of an amusement park guide in conjunction with the dispensing of an amusement park ticket, or the dispensing of a product guide in conjunction with the vending of arcade tokens or game cards, or the dispensing of a movie on media in conjunction with store advertisements . See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper..

4. No claims appear to be linking claims.
